About IIM Sambalpur

Indian Institute of Management Sambalpur is one of the fastest growing third generation IIMs in India.

Established in the year 2015 in the most industrialised district of Odisha, IIM Sambalpur aims not just to replicate, but to transcend the accomplishments of its older peers. Currently operating from its temporary campus at Jyoti Vihar, Burla, IIM Sambalpur recently commenced sessions for its 7th batch of MBA students 1st Executive MBA Batch and 3rd batch of Ph.D. students on 1st July, 2019. A 237-acre world-class permanent campus is being set up in Basantpur which would be operational by 2023.

IIM Sambalpur believes in imparting management education through an unconventional approach. The institute's mission is to create responsible leaders with an entrepreneurial mindset ingrained with the values of Innovation, Integrity and Inclusion. The long-term vision is to encourage a germinating ground for job creators rather than job seekers.

The curriculum at IIM Sambalpur constantly pushes the participants to go beyond the confines of the classroom and explore learning by experimentation. The presence of a large number of industries in the vicinity helps the students understand the application of their classroom learnings through rigorous industry interfacing.

Why IIM Sambalpur

IIM Sambalpur looks to take advantage of its immense potential as an upstart B-School to create a culture of management education that would help differentiate itself and build a global brand that marks the epitome of excellence.

At the core of IIM Sambalpur's philosophy, the 3 Is of Innovation, Integrity and Inclusiveness are most valued. The students are encouraged and trained to identify real-life paradigms and to apply their classroom knowledge to find unique solutions in the domain of self-sustenance and social development. Innovation that solves the issues of the larger and more underprivileged sections of the society is endorsed.

The 'Smart Villages' program envisioned by Dr. M. P. Jaiswal, Director, IIM Sambalpur has prompted the PGPM participants to look closely at the problems existing in the hinterlands of India and utilize their management education to come up with sustainable business models as solutions to these problems. The program is a true manifestation of IIM Sambalpur's emphasis on 'Learning by Experimenting.'

The institute has classrooms equipped with the latest technology and high-speed internet connectivity. IIM Sambalpur is also the first IIM to implement the idea of Flip classroom, a learning environment where much of the learning happens outside the classroom within the industry premises.
