

GENERAL AWARENESS

Q.1) In which country did chess originate?

- A. India
- B. Iran
- C. Spain
- D. Italy

Q.2) Manu Bhaker won gold in the 2018 Youth Olympic Games in sports.

- A. 10m rifle
- B. 50m rifle
- C. 25m air pistol
- D. 10m air pistol

Q.3) Which of the following is an 'inactivated vaccine' or a vaccine developed using a deadvirus?

- A. Covishield
- B. Covaxin
- C. Moderna
- D. Sputnik-V

Q.4) The Siro-survey, that is proposed to be conducted by ICMR for monitoring trends in the prevalence of the novel corona virus, will involve the testing of which sample?

- A. Urine
- B. Nasal swab
- C. Throat swab
- D. Blood serum

Q.5) In which place in Nagaland was a decisive battle of World War II fought?

- A. Phek
- B. Dimapur
- C. Kohima
- D. Wokha

Q.6) Find the odd one out

- A. K.K.Shailaja
- B. Jacinda Ardern
- C. Sanna Mirella Marin
- D. Tsai Ing-Wen

Q.7) Which wrestler was awarded the Rajiv Gandhi Khel Ratna Award 2020?

- A. Bajrang Punia
- B. Rahul Aware
- C. Yogeshwar Dutt
- D. Vinesh Phogat

Q.8) Which of the following options is true in relation to an epidemic?

An epidemic _____.

- A. is a sudden increase in the occurrence of a disease with the change of season

- B. continues to stay permanently in a region or population
- C. always occurs worldwide
- D. affects a large number of people within a community, population, or region at a particular time

Q.9) Which of the following musical instruments is Anuradha Pal associated with?

- A. Sitar
- B. Guitar
- C. Mandolin
- D. Tabla

Q.10) Which of the following is NOT a session of the Lok Sabha?

- A. Monsoon Session
- B. Winter Session
- C. Budget Session
- D. Summer Session

Q.11) Black revolution in Indian context is related to _____.

- A. petroleum production
- B. coal production
- C. fish production
- D. iron ore production

Q.12) What kind of product was manufactured by the Union Carbide plant in Bhopal, which had one of the worst Industrial disasters in independent India?

- A. Plastics
- B. Paints
- C. Leather
- D. Pesticides

Q.13) India's decision to send Covid-19 vaccine to neighbouring countries is being done under the _____.

- A. Atmanirbhar Bharat Initiative
- B. Vaccine Maitri Initiative
- C. Bharat Vaccine Outreach Programme
- D. Vaccine Diplomacy Policy

Q.14) Which was the first book to set the stage for society to change in becoming more environmentally aware?

- A. Population Bomb by Paul Ehrlich
- B. The Omnivore's Dilemma by Michael Pollan
- C. The Lorax by Dr. Seuss
- D. Silent Spring by Rachel Carson

Q.15) Greenhouse gases prevent release of heat in the _____

- A. exosphere
- B. troposphere

- C. stratosphere
- D. thermosphere

Q.16) Which Indian Lunar probe discovered water on the Moon?

- A. Chandrayaan-1
- B. Mangalyaan
- C. Cartosat-3
- D. Chandrayaan-2

Q.17) The year 2021 marks the _____ death anniversary of Mahatma Gandhi.

- A. 74th
- B. 75th
- C. 73rd
- D. 72nd

Q.18) The UDAY Scheme implemented by the Government of India since 2015 seeks to _____.

- A. distribute LED bulbs at a low price to reduce electricity consumption
- B. provide life insurance of Rs. 2 lakh for people between 18 to 50 years age group
- C. achieve financial turnaround of power distribution companies of the public sector
- D. provide LPG connection to BPL families at subsidised rates

Q.19) Which is the state with the highest percentage of the Scheduled Tribes population in India?

- A. Jharkhand
- B. Madhya Pradesh
- C. Odisha
- D. Mizoram

Q.20) The Nobel Peace Prize 2020 was awarded to _____.

- A. World Food Programme
- B. Organisation for the Prohibition of Chemical Weapons (OPCW)
- C. International Campaign to Abolish Nuclear Weapons (ICAN)
- D. National Dialogue Quartet

Q.21) Find the ODD one out?

- A. M. F. Hussain
- B. Pannalal Ghosh
- C. Raja Ravi Varma
- D. S.H. Raza

Q.22) Who among the following is said to have drafted the U.S. Declaration of Independence with four others?

- A. Thomas Jefferson
- B. George Washington
- C. King George III
- D. Abraham Lincoln

Q.23) Which of the following is NOT part of the Sustainable Development Goals?

- A. Promotion of decent jobs for all
- B. Access to digital technological services for all
- C. Access to sustainable energy for all
- D. Availability of water and sanitation for all

Q.24) Who was the first Indian woman to be elected as President of United Nations General Assembly?

- A. Indira Gandhi
- B. Vijaya Lakshmi Pandit
- C. Sarojini Naidu
- D. Rajkumari Amrit Kaur

Q.25) Which among the given options is the Indian social reformer also known as the Father of Modern India?

- A. Mahatma Gandhi
- B. Ishwar Chandra Vidyasagar
- C. Raja Ram Mohan Roy
- D. Acharya Vinoba Bhave

Q.26) The second largest ocean in the world is _____.

- A. Pacific Ocean
- B. Arctic Ocean
- C. Atlantic Ocean
- D. Indian Ocean

Q.27) Which is the first state/UT to become the first Har Ghar Jal state in India?

- A. Goa
- B. Kerala
- C. Chandigarh
- D. Sikkim

Q.28) Who is the current Secretary-General of the United Nations?

- A. David Malpass
- B. Kristalina Georgieva
- C. Antonio Guterres
- D. Tedros Adhanom

Q.29) Who was the Commander of the Air India Plane that flew over North Pole in January 2021 with an all-women cockpit crew?

- A. Capt. Nivedita Bhasin
- B. Capt. Aarohi Pandit
- C. Capt. Sarah Hameed Ahmed
- D. Capt. Zoya Agarwal

Q.30) Which was the Indian entry for Oscars in 2020?

- A. Newton

- B. Jallikattu
- C. Gully Boy
- D. Village Rockstars

Q.31) Drishyam, the Hindi movie released in 2015, was originally made in which Indian language?

- A. Malayalam
- B. Tamil
- C. Telugu
- D. Kannada

Q.32) This writer was the first to win the Sahitya Academy Award for English literature. Who was he?

- A. R.K.Narayan
- B. Raja Rao
- C. Ruskin Bond
- D. Mulk Raj Anand

Q.33) The book A Promised Land (2020) has been authored by _____.

- A. Barack Obama
- B. Pranab Mukherjee
- C. Malala Yousafzai
- D. Nelson Mandela

Q.34) Which among the following Indian freedom movements started with the breaking of the Salt Law?

- A. Quit India Movement
- B. Champaran Satyagraha
- C. Non-cooperation Movement
- D. Civil Disobedience Movement

Q.35) What is the name of the Central Government's economic package for the poor to fight Coronavirus pandemic and lock-down?

- A. Prime Minister Kisan Samman Nidhi Yojana
- B. Prime Minister Suraksha Bima Yojana
- C. Prime Minister Gareeb Kalyan Anna Yojana
- D. Prime Minister Annadata Aay Sanrakshan Abhiyan

Q.36) Which of the following hill ranges is dominated by the 'Doddabetta' peak?

- A. Nallamala Hills
- B. Nilgiri Hills
- C. Anaimalai Hills
- D. Cardamom Hills

Q.37) Identify the current Lok Sabha Speaker among the given options.

- A. Meira Kumar
- B. Sumitra Mahajan
- C. Venkaiah Naidu
- D. Om Birla

Q.38) The main theme of Economic Survey 2020-2021 is _____.

- A. Policy Reforms
- B. Saving Lives and Livelihoods
- C. Environment and Development
- D. Saving COVID-19 Warriors

Q.39) Bhitarkanika National Park is situated in which Indian state?

- A. Maharashtra
- B. Odisha
- C. Himachal Pradesh
- D. Madhya Pradesh

Q.40) Name the country that generates all its electricity using renewable energy.

- A. Denmark
- B. Iceland
- C. Costa Rica
- D. Bhutan

MATHS & LOGICAL REASONING

Q.41) If 2 is a root of the equation $2x^2 + kx + 4 = 0$, which of the following values of k gives another positive integer root?

- A. $k = 6$
- B. $k = 12$
- C. $k = -6$
- D. $k = -12$

Q.42) The percentage increase in the area of a rectangle when each side is increased by a quarter of its length is _____.

- A. 50.00%
- B. 66.66%
- C. 56.25%
- D. 25.00%

Q.43) The number of ways in which Aman, Anaya, Danish and Nero can stand in a straight line such that, Danish comes between Aman and Anaya and Nero does not come between Aman and Anaya is _____.

- A. 4
- B. 6
- C. 8
- D. 12

Q.44) A rhombus and a kite both DO NOT have _____.

- A. equal adjacent sides
- B. equal opposite sides
- C. two acute and two obtuse angles

D. bisecting diagonals

Q.45) Abhay can complete a piece of work in 18 days, Balram in 20 days and Chandan in 30 days. Balram and Chandan started the work but were forced to leave after 2 days. How many days will Abhay take to complete the remaining work alone?

- A. 10 days
- B. 12 days
- C. 15 days
- D. 16 days

Q.46) Two guns were fired from the same place at an interval of 6 minutes. A person approaching the place observed that 5 min 52 seconds have elapsed between the hearings of the sound of two guns. If the velocity of the sound is 330 meter/ second, the man was approaching that place at what speed in kilometre per hour?

- A. 24 km/hr
- B. 18 km/hr
- C. 21 km/hr
- D. 27 km/h

Q.47) A positive integer when divided by q leaves remainder 21. When double that number is divided by q , the remainder is 13. Then, q is _____.

- A. 21
- B. 29
- C. 39
- D. 37

Q.48) The least number of complete years in which a sum of money will be more than doubled at 10% compound interest is _____.

- A. 10
- B. 8
- C. 5
- D. 6

Q.49) The product of two numbers is 45 and their difference is 4. What is the sum of squares of these two numbers?

- A. 106
- B. 102
- C. 41
- D. 104

Q.50) The ratio of simple interest calculated biennially and quarterly at the same rate of interest for the same time period is _____.

- A. 1 : 4
- B. 2 : 1
- C. 1 : 2
- D. 4 : 1

Q.51) The missing number in the following table is _____.

64	216	512
1000	1728	2744
4096	??	8000

- A. 5832
- B. 7200
- C. 7648
- D. 6400

Q.52) The compound interest on Rs. 30000 at 7 percent per annum is Rs. 4347. What is the time period in years for this investment?

- A. 2 years
- B. 4 years
- C. 5 years
- D. 3 years

Q.53) Two sets AA and BB are defined as follows:-

$$AA = \{x \mid x \in \mathbb{N}, x < 5\}$$

$$BB = \{x \mid x \in \mathbb{N}, x^2 < 25\}$$

$n(XX)$ = number of elements in XX. Choose the CORRECT option.

- A. $n(AA) > n(BB)$
- B. $n(AA) < n(BB)$
- C. $AA = BB$
- D. $n(AA) = n(BB)$

Q.54) The leap day falls on the same day of the week after a gap of at least _____.

- A. 28 years
- B. 7 years
- C. 5 years
- D. 11 years

Q.55) Two fair dices with faces numbered 1 to 6 are thrown and their points are added. The thrower is given Rs. 40 for a score of 12 and he has to pay Rs. 2 if the score is less than 12. What is his expectation about gain or loss per throw?

- A. Loss of Rs. $\frac{1}{6}$
- B. Gain of Rs. $\frac{1}{6}$
- C. Gain of Rs. $\frac{5}{6}$
- D. Loss of Rs. $\frac{5}{6}$

Q.56) For every 60 units that a minute hand moves in an hour, the hour hand moves by _____.

- A. 15 units
- B. 1 unit
- C. 5 units
- D. 4 units

Q.57) Ranbir's office has two doors facing each other. The front door faces east. He comes out of his office back door and walks 100 metres, turns right and walks 50 metres further. The direction he is now from his office is _____.

- A. North-east
- B. South-west
- C. South-east
- D. North-west

Q.58) Among the following options, the CORRECT one is

- 1. Rhombus is a cyclic quadrilateral
 - 2. Diagonals of a rhombus are equal
 - 3. A rhombus that can be inscribed in a circle is a square
 - 4. Opposite angles in a rhombus are equal
- A. Both 1 and 2
 - B. Both 1 and 4
 - C. Both 1 and 3
 - D. Both 3 and 4

Q.59) Which of the given statements is an INCORRECT representation of the expression $1\frac{3}{2} \div \frac{1}{2}$

- A. Number of halves in $1\frac{3}{4}$
- B. $1\frac{3}{4}$ times reciprocal of $\frac{1}{2}$
- C. Half of $1\frac{3}{4}$
- D. The expression is about finding the number whose half is $1\frac{3}{4}$

Q.60) A person goes from X to Y on a cycle at 20 kilometres per hour and returns at 24kilometers per hour. The method of Central Tendency most appropriate to calculate the average speed would be _____.

- A. Geometric Mean
- B. Harmonic Mean
- C. Arithmetic Mean
- D. Weighted Arithmetic Mean

Q.61) The Coefficient of Variation can be measured by _____

- A. Standard Deviation and Mean
- B. Quartile Deviation and Mean
- C. Variance and Mean
- D. Range and Mean

Q.62) Complete the following series of numbers: 6, 26, 126, 626,

- A. 3126
- B. 3125
- C. 3216
- D. 3215

- Q.63) The seventh term in the series 5, 13, 29, 61, is _____.
- A. 97
 - B. 191
 - C. 253
 - D. 509

Q.64) An article manufactured by a company consists of two parts: Part I and Part II. In the process of manufacturing of Part I, 9 products out of 100 are likely to be defective. Similarly, 5 products out of 100 are likely to be defective in the manufacture of Part II. What is the probability that the final assembled article will NOT be defective?

- A. 0.8465
- B. 0.8645
- C. 0.8564
- D. 0.8546

Q.65) If $\log \frac{a}{b} + \log \frac{b}{a} = (\log a + b)$, then which of the following statements is CORRECT?

- A. $a - b = 1$
- B. $a + b = 1$
- C. $a = b$
- D. $a^2 - b^2 = 1$

Q.66) The surface area of the resultant cuboid that gets formed by placing five ice cubes adjacent to each other, each of whose side is 5 centimetres, is _____.

- A. 625 cm^2
- B. 550 cm^2
- C. 125 cm^2
- D. 650 cm^2

Instructions [67 – 70]

The following table presents Purpose-wise Total Balances (Over dues) of Primary Agricultural Credit Societies (PACS) of some select States of India. Answer the following four questions based on this table.

States	Balances (Overdues) Purpose-wise		
	Agricultural	Non-Agricultural	Others
Gujarat	324455.78	4978.96	13419.82
Karnataka	45064.27	31033.48	7152.67
Kerala	148625.45	1030589.55	505017.31
Madhya Pradesh	155466.25	12301.47	5394.18
Telangana	38759.63	1943.87	2222.15
India	1830035.42	1356970.63	2197801.83

Q.67) Which of the given statements is INCORRECT?

- A. Gujarat has the second highest average overdue

- B. The average overdue of Karnataka is less than the average overdue of Madhya Pradesh
- C. The average overdue is the highest in Kerala among the select states
- D. The average overdue of Karnataka is less than the average overdue of Telangana

Q.68) The state of _____ has 0.01% of highest Non-Agricultural overdue as a percentage of total overdue.

- A. Gujarat
- B. Telangana
- C. Kerala
- D. Karnataka

Q.69) In which state, is the ratio of agricultural to non-agricultural over dues the highest, among the selected states?

- A. Kerala
- B. Karnataka
- C. Gujarat
- D. Telangana

Q.70) In the table above, which state shows the highest variability of over dues?

- A. Madhya Pradesh
- B. Kerala
- C. Gujarat
- D. Karnataka

ENGLISH PROFICIENCY

Q.71) Spot the Error.

"If I were in your shoes, I would put on a happy face," advised Rakesh. No Error.

- A. No Error
- B. advised Rakesh
- C. I were
- D. put on

Q.72) Identify the correct order of the following statements to make a coherent paragraph. The lead sentence has been given.

With its rich pungency and smell, garlic has been both extolled and vilified during its 4000 year history.

- A. Later the Greeks and Romans used it for dog bites and bladder infections as well as cures for asthma and leprosy.
- B. The ancient Egyptians used it as medicine for more than twenty different ailments including heart disease and tumours.
- C. The Israeli slaves when fleeing the Egyptians for the Promised Land complained of not having garlic.
- D. Although it is sometimes referred to as "the stinking rose" and certainly its smell is off-putting to many, it still thrives today with even a garlic ice cream available in San Francisco.
- E. They even fed it to their slaves to give them more strength to build the pyramids.

Q.73) Fill in the blank to complete the sentence:

Despite being twins, the boys looked so different ____ one another.

- A. than
- B. with
- C. to
- D. from

Q.74) Which word from the given options is most opposite in meaning to the word in capitals?

IMPEDE

- A. fetter
- B. speed
- C. slide
- D. facilitate

Q.75) Fill in the blanks to complete the sentence:

He was quick ____ arithmetic, but weak ____ languages.

- A. in; at
- B. at; in
- C. at; at
- D. in; in

Q.76) Spot the Error

Let us not live here furthermore as it is dangerous to do so, she said. No Error

- A. here furthermore
- B. No Error
- C. so, she said
- D. Let us

Q.77) Spot the Error.

Every adult and child know that success is as much about belief and hard work as about skill. No Error

- A. No Error
- B. as about skill
- C. knows
- D. as much

Q.78) Fill in the blanks to complete the sentence:

The _____ of modern technology do not compensate for the _____ of privacy invasion it harbours.

- A. cons; failure
- B. wonders; fact
- C. tribulations; trials
- D. marvels; loss

Q.79) Fill in the blanks to complete the sentence:

There is _____ on earth I would _____ here.

- A. anywhere; be
- B. nowhere; rather be than

- C. any where; love more than
- D. no where; want to be

Q.80) Identify the correct order of the following statements to make a coherent paragraph. The lead sentence has been given.

The expression “you are what you eat” is becoming clearer with every nutritional study.

- A. In brief, most longevity studies indicate that a diet rich in Omega 3s and avoiding sugars and most carbohydrates will add years to our lives, and especially the quality of our lives.
- B. However, the problem for most of us in eating a healthy diet is that food is cultural and we tend to eat foods that our culture has instilled in us as good, whether or not they are consistent with these studies.
- C. Physically, athletes are learning to avoid carbohydrates if they require bursts of speed in their sports.
- D. Even mentally, what we eat can affect performance as many foods such as sugars slow us down and tend to make us lethargic, something we must avoid especially while taking exams.
- E. Nutritionists suggest deficiencies in B-12, thiamine, zinc and niacin will result in lower mental performance.

Q.81) Fill in the blank to complete the sentence:

This pandemic has taught us to be more _____ with hygiene

- A. chary
- B. tepid
- C. suspicious
- D. circumspect

Q.82) Identify which of the given options CANNOT be definitely inferred from the passage given below.

The group was wary of taking the course. The expectations set by the professor were so high, that they seemed near impossible to achieve. There were many readings given and the assignments seem to focus on anything but the readings. It was almost as if the readings were a take-off point only. The group was worried that their cumulative grade point would suffer as a result of taking this course.

- A. The students may not take the course.
- B. The readings were only guideposts for the assignments
- C. The professor was very strict.
- D. The group does not have faith in its ability to do well in the course.

Q.83) Fill in the blank with the most appropriate option: To meet the goals of Atmanirbhar Bharat the universities have started _____ study programmes.

- A. entrepenurship
- B. entreprenuship
- C. entrepreneurship
- D. entrepnurship

Q.84) Fill in the blanks to complete the sentence:

The number of people who _____ interested in the play _____ outnumbered by those who already bought the tickets to watch it.

- A. is not; are
- B. are not; is
- C. is; is
- D. are; are

Q.85) Fill in the blanks to complete the sentence: It is difficult to feel _____ when one is at _____.

- A. remorseful; the top of the world
- B. enchanted; a birthday celebration
- C. favoured by fortune; a loss for words
- D. indigent; the mercy of one's creditors

Q.86) Select the synonym for the word underlined in the statement given below:

He was always looking to save money. After all, one needed to be frugal if one wanted to build a successful business.

- A. thrifty
- B. wise
- C. economic
- D. prudent

Q.87) Which word from the given options is most similar in meaning to the word in capitals when used as a VERB?

MEAN

- A. miserly
- B. midpoint
- C. signify
- D. sumptuous

Q.88) Spot the Error.

Films are an amazing medium of communicating cultures and history. No Error.

- A. cultures and history
- B. of communicating
- C. an amazing medium
- D. No Error.

Q.89) Select the antonym for the word underlined in the statement given below:

They did not know which direction to go in. They were at an impasse about the release date of the film.

- A. deadlock
- B. breakthrough
- C. obstruction
- D. debate

Q.90) Based on the information that follows, which of the given options is MOST DEFINITELY TRUE?
There are two containers in a room.

1. One is a box and one is a can.
 2. One is small and is green.
 3. One of them has toys in it.
 4. The can is big.
 5. The container that is completely purple has toys in it.
- A. The box is big.
 - B. The can is green.
 - C. The box does not have toys in it.
 - D. The can has toys in it.

Instructions [91 - 95]

The target group of major OTT platforms should ideally be “millennials” or the age group of 18-35 years. This number, however, is largely due to the Digital India campaign, increasing the number of smartphone and data users and is also an effect of globalization which has led the population to be more aware. With major data service providers like Jio bringing down data costs, there has been a significant shift in viewership in India with number of Indian users growing at the rate of 4-8%. This essentially means that there is massive potential for rural India to subscribe to such platforms on a large scale - making rural India also a target group for platforms.

In 2017, OTT platforms in India generated INR 2019 crore, this is expected to increase to INR 5595 crores by 2022. Digital streaming platforms overtook film entertainment to rank the third-largest Indian Media & Entertainment sector in 2019, according to the latest EYFICCI Indian Media & Entertainment Report.

When most OTT platforms made an entry in the Indian market, they mainly had catch-up shows. However, with the entry of global players like Netflix and Amazon Prime Video, users are offered a plethora of original content. Hotstar is currently the most popular OTT platform in India according to data from a mobile advertising and internet service provider. Although in my opinion, Netflix will be the market leader in the medium term among millennials as it is a giant global player and it entered India powerful, mainly due to the youth inspired by western culture.

Q.91) Which of the given options best represent the author’s purpose in writing the passage?

- A. To describe the potential of the OTT platforms.
- B. To comment on the importance of the OTT platforms
- C. To highlight the presence of OTT platforms in India
- D. To argue for the advantages of the OTT platforms

Q.92) Which of the given options is an assumption made by the author?

- A. Original content attracts users.
- B. Data costs had kept users away till Jio entered the market.
- C. Digital India campaign led to an increase in sale of digital devices.
- D. Mobile interface is essential to attract users.

Q.93) Which of the following can be inferred based on the passage?

- A. Rural areas are entirely untapped by OTT platforms.
- B. Digital streaming and OTT refer to the same type of platform.
- C. OTT platforms will more than double their revenue in just 5 years.
- D. Millennials are the only age-group the OTT platforms should focus upon.

Q.94) The author will NOT agree with which of the given options?

- A. The ones born between 1985 and 2002 are easily attracted to Netflix.
- B. OTT platforms surpassed movies two years ago.
- C. Netflix's popularity is solely due to the western influences on Indian youth.
- D. Indian players were the first ones on OTT platforms in this country.

Q.95) The passage has most likely appeared in _____.

- A. a brand building magazine
- B. a computer magazine
- C. a research journal
- D. a newspaper publication

Instructions [96 - 100]

Historians have long argued about what gave rise to the Age of Enlightenment in the eighteenth century. Some have hypothesized that it was at least in some part due to the rise of coffee houses. That seems a bit farfetched until we look at it more closely.

Very quickly after the rise of coffee houses, there emerged a distinction between them and the pubs. Rumours of the health benefits of coffee spread and it was soon agreed that coffeehouses spurred more sober, rational thought and sharper political discussion, whereas taverns catered to rowdiness and intoxication. A coffee house was a place to be exposed to new ideas, current events and discussions of how life might be lived. Until this time, a forum to discuss new ideas had not existed. Now, merchants, traders, writers, philosophers, and politicians had such a forum. Gradually they found other ways of meeting and coffee houses began to wane in popularity until the Starbucks generation brought them back twenty-five years ago.

Some historians claim that coffee replaced "beer soup," which was what most Europeans and Americans had subsisted on, with a "drug" that now kept them awake and allowed them to converse well into the night in a far more lucid way. This, they feel, was what gave rise to both the French and American revolutions. Other historians say that a higher level of leisure had created an environment in which people could afford the time to meet in coffee houses to discuss the latest farming techniques, business trends and, of course, politics.

King Charles of England actually attempted a ban of coffee houses in 1675, fearing that they might result in his loss of power or even decapitation. However, his ministers loved their coffee so much that they overruled the ban.

So, did coffee houses give rise to these meetings or was it the level of leisure that had suddenly come about? It does seem logical that people with a clear head would be more capable of holding onto an idea for a longer period of time, and would have the mental acuity to grasp what each other was saying. So, perhaps it was a happy confluence of increased leisure and a switch to coffee that enabled so many of those wonderful thinkers to hammer out their ideas for a new nation and those with a scientific bent to come up with so many of the major breakthroughs during the eighteenth century in Europe and America.

Some of our founding fathers may have sat in these very coffee houses discussing the future of the colonies or how government should be, noting the pitfalls or failures of the monarchies of England and France. Perhaps a seemingly harmless thing like the emergence of coffeehouses actually influenced our future. Interestingly, almost as quickly as they sprang up, coffee houses began to decline. They had served their purpose and were no longer needed as meeting places for political or literary critics and debate.

Q.96) If coffee was NOT the largest influence on the Age of Enlightenment, what does the author suggest might have been the influence?

- A. the revolutionary ideas that were everywhere
- B. the King's proclamation
- C. the rise in leisure time that Europeans and Americans had suddenly had
- D. the closing of many pubs at this time

Q.97) Which of the following most closely suggests the author's attitude about the influence of coffee houses on the Age of Enlightenment?

- A. they definitely were the major factors
- B. they were definitely an improvement over pubs
- C. they were a possible connection, but perhaps not the only one
- D. they were more conducive to conversation

Q.98) Which of the following does the author NOT do concerning coffee?

- A. indicate that it sharpens the mind
- B. mention that it helped people stay up late to discuss things
- C. contrast it with "beer soup"
- D. demonstrate why it is so healthy

Q.99) Why does the author mention the proclamation of King Charles?

- A. to show how kings were bullies
- B. to suggest how things got done back then
- C. to demonstrate how strongly coffee houses had become part of society
- D. to indicate that the King saw coffee houses as a threat to his power

Q.100) Which of the following best expresses the author's purpose in writing this passage?

- A. to show how the political thinking behind two revolutions got started
- B. to explain how the Age of Enlightenment came about
- C. to show why coffee houses are better than pubs
- D. to discuss a possible connection between coffee houses and the Age of Enlightenment

ANSWERS

GENERAL AWARENESS

- 1) Answer: A
- 2) Answer: D
- 3) Answer: B
- 4) Answer: D
- 5) Answer: C
- 6) Answer: A
- 7) Answer: D
- 8) Answer: D
- 9) Answer: D
- 10) Answer: D

- 11) Answer: A
- 12) Answer: D
- 13) Answer: B
- 14) Answer: D
- 15) Answer: A
- 16) Answer: A
- 17) Answer: C
- 18) Answer: C
- 19) Answer: B
- 20) Answer: A
- 21) Answer: B
- 22) Answer: A
- 23) Answer: B
- 24) Answer: B
- 25) Answer: C
- 26) Answer: C
- 27) Answer: A
- 28) Answer: C
- 29) Answer: D
- 30) Answer: B
- 31) Answer: A
- 32) Answer: A
- 33) Answer: A
- 34) Answer: D
- 35) Answer: C
- 36) Answer: B
- 37) Answer: D
- 38) Answer: B
- 39) Answer: B

MATHS & LOGICAL REASONING

- 41) Answer: C

Explanation:

Putting $x=2$ in the above equation

$$2(4) + 2k + 4 = 0$$

$$k = -6$$

- 42) Answer: C

Explanation:

Increase in length of each side = 25%

Apply successive percentage formula

$$\text{we get increase in area} = 25 + 25 + (25 \times 25)/100 = 50 + 6.25 = 56.25$$

- 43) Answer: A

Explanation:

The possible outcomes will be

Aman, Danish, Anaya, Nero
Anaya, Danish, Aman, Nero
Nero, Aman, Danish, Anaya
Nero, Anaya, Danish, Aman

44) Answer: B

Explanation:

A rhombus has all sides of equal length.

A kite has two adjacent sides which are equal and the other two adjacent sides are also equal but the opposite sides are not equal.

The diagonals of both a rhombus and a kite bisect each other.

Both the rhombus and kite have two acute angles and two obtuse angles.

45) Answer: C

Explanation:

$LCM(18, 20, 30) = 180$

Let total work be 180 units

Abhay can complete the work in 18 days which means in one day he does 10 units of work.

Balram can complete the work in 20 days which means in one day he does 9 units of work.

Chandan can complete the work in 30 days which means in one day he does 6 units of work.

Let the remaining work done by A be x days

Therefore, $180 = 2(9+6) + 10x$

$10x = 150$

$x = 15$ days

46) Answer: D

Explanation:

Two shots were fired at an interval of 6 minutes but the man heard both the shots at an interval of 5 minutes 52 seconds which means that between the hearing of first shot and the second shot he covered a distance equal to 330×8 m.

Time taken by man to cover the distance = 352 seconds

Speed of man = $(33 \times 8) / 352 = 7.5$ m/s

Speed in Km/hr = $7.5 \times (18/5) = 27$ Km/hr

47) Answer: B

Explanation:

Let the positive no. be N

$N = kq + 21$

$N' = 2N = 2kq + 42$

Now N' leaves a remainder of 13 when divided by q

So, $N' = pq + 13$

Therefore, Remainder when 42 is divided by q should be 13 which is only possible when $q=29$.

48) Answer: B

Explanation:

No. of years in which a sum of money invested at $r\%$ compounded annually amounts to double is $72/r$ years

So, no. of years in which the amount will be doubled = $72/10 = 7.2$ years

So, the least no. of years for which the amount will be more than doubled will be 8 years.

49) Answer: A

Explanation:

Let the numbers be x and y

It is given, $xy = 45$

$$x - y = 4$$

squaring on both sides, we get

$$x^2 + y^2 - 2xy = 16$$

$$x^2 + y^2 = 16 + 2(45) = 106$$

Answer is option A.

50) Answer: C

Explanation:

Simple Interest biennially = $(1/2) * (P * r * 2T) / 100 = PrT / 100$

Simple Interest quarterly = $(8) * (P * r * T / 4) / 100 = 2PrT / 100$

So, Ratio = 1:2

51) Answer: A

Explanation:

$$4^3, 6^3, 8^3$$

$$10^3, 12^3, 14^3$$

$$16^3, x^3, 20^3$$

x should be 18

$$? = 18^3 = 5832$$

Answer is option A.

52) Answer: A

Explanation:

$$P \left(1 + \frac{r}{100}\right)^n - P = 4347$$

$$\left(1 + \frac{r}{100}\right)^n - 1 = \frac{4347}{30000}$$

$$\left(1 + \frac{7}{100}\right)^n - 1 = \frac{11449}{10000}$$

$$n = 2$$

Answer is option A.

53) Answer: C

Explanation:

AA = {1, 2, 3, 4}; $n(AA) = 4$

BB = {1, 2, 3, 4}; $n(BB) = 4$

So, AA = BB

54) Answer: A

Explanation:

CATKing

CONNECT | ASPIRE | TRANSFORM

364 days makes 52 weeks so we will take the remainder days in a year and add them.
 For a period of 4 years the no. of days which we get = $2+1+1+1=5$
 We have taken a period 4 years as a leap year occurs in every 4 years
 Now, we have to make 5 days a multiple of 7 for which we have to multiply it with 7.
 So, total years will be $4*7 = 28$ years

55) Answer: D

Explanation:

$$\text{Probability of getting } 12(6,6) = \frac{1}{6} \cdot \frac{1}{6} = \frac{1}{36}$$

$$\text{Gain or loss per throw} = 40 \left(\frac{1}{36}\right) + (-2) \left(\frac{35}{36}\right) = \frac{40}{36} - \frac{70}{36} = -\frac{5}{6}$$

Loss of Rs. $\frac{5}{6}$ for one throw.

Answer is option D.

56) Answer: C

Explanation:

In an hour, minute hand covers 60 units

$$\text{Units covered by hour hand} = \frac{60}{12} = 5$$

Answer is option C.

57) Answer: D

Explanation:

The front door is facing east which means that the back door should be facing west.

Ranbir comes out of his from the back door which means he travels in the west direction for 100m and then turns right which means he is now travelling north.

So finally Ranbir is in northwest direction from his office.

58) Answer: D

Explanation:

Rhombus is not a cyclic quadrilateral as the sum of opposite angles is not always 180 degrees.

Diagonals of a rhombus are not equal except in the case of a square.

A rhombus which is inscribed in a circle is always a square as it will be a cyclic quadrilateral for which the sum of opposite angles must be 180 degrees which is possible only when it is a square.

The opposite angles of a rhombus are equal.

59) Answer: C

Explanation:

$$1\frac{3}{4} \div \frac{1}{2} \text{ can be written as } \div \frac{1\frac{3}{4}}{\frac{1}{2}}$$

$$\text{option C - Half of } 1\frac{3}{4} \text{ will be written as } \frac{1\frac{3}{4}}{2}$$

Therefore, answer is option C.

60) Answer: B

Explanation:

If the distance travelled is the same during all the speeds then the average speed for the whole journey is the harmonic mean of the speed.

61) Answer: A

Explanation:

The standard formula for calculating the coefficient of variation = Coefficient of Variation (CV) = (Standard Deviation/Mean) × 100.

62) Answer: A

Explanation:

$$6 \times 5 - 4 = 26$$

$$26 \times 5 - 4 = 126$$

$$126 \times 5 - 4 = 626$$

$$626 \times 5 - 4 = 3126$$

Answer is option A.

63) Answer: D

Explanation:

$$5 \times 2 + 3 = 13$$

$$13 \times 2 + 3 = 29$$

$$29 \times 2 + 3 = 61$$

$$61 \times 2 + 3 = 125$$

$$125 \times 2 + 3 = 253$$

$$253 \times 2 + 3 = 509$$

Answer is option D.

64) Answer: B

Explanation:

Probability to be defective for part I = $\frac{9}{100}$

Probability to be defective for part II = $\frac{5}{100}$

Final assembled problem will not be defective if part I and part II are not defective.

$$\text{Probability} = \frac{91}{100} \times \frac{95}{100} = 0.8645$$

Answer is option B.

65) Answer: B

Explanation:

$$\log(a/b) + \log(b/a) = \log(a+b)$$

$$\log(a+b) = \log(a/b)(b/a)$$

$$\log(a+b) = \log 1$$

$$a+b=1$$

66) Answer: B

Explanation:

The dimensions of given cuboid is 25 cm, 5 cm and 5 cm

$$\text{Surface area} = 2(lb+bh+lh) = 2(125 + 125 + 25) = 550 \text{ cm}^2$$

Answer is option B.

67) Answer: D

Explanation:

Total overdue of Gujarat = 342,854.56

Total overdue of Karnataka = 83,250.42

Total overdue of Kerala = 1,684,232.31

Total overdue of Madhya Pradesh = 173,161.9

Total overdue of Telangana = 42,925.65

We can see that Gujarat's total overdue is the second highest so its average overdue will also be the second-highest among the five states

Similarly, we can see that options B and C are also correct.

The average overdue of Karnataka will be more than the average overdue of Telangana so option D is incorrect.

68) Answer: B

Explanation:

Total overdue of Gujarat = 342,854.56

Total overdue of Karnataka = 83,250.42

Total overdue of Kerala = 1,684,232.31

Total overdue of Madhya Pradesh = 173,161.9

Total overdue of Telangana = 42,925.65

% overdue of non-agricultural overdue for Telangana = $(1943.87/1,356,970.63) * 100 = 0.01\%$

69) Answer: C

Explanation:

Ratio of agricultural overdue to non-agricultural overdue for Gujarat = $324455.78/4978.96 = 65.17$

Similarly, we can calculate this ratio for others and then we can see that this ratio is highest for Gujarat.

70) Answer: B

Explanation:

From the table above we can see that the highest variability in revenue is shown by Kerala.

ENGLISH PROFICIENCY

71) Answer: A

Explanation:

There is no error in the given statement.

Answer is option A.

72) Answer: A

Explanation:

B-E-C forms a logical sequence as the word "they" in E refers to the "Egyptians" mentioned in B. Statement C builds up on E by talking about the "Egyptian slaves".

Among the options, only A has the sequence B-E-C

Hence, the answer is option A.

73) Answer: D

Explanation:

The word "different" is used to compare the appearance of two people. Thus, "from" is the most suitable choice to use with it.

Hence, the answer is option D.

74) Answer: D

Explanation:

The word "impede" means to "obstruct".

Among the options, "facilitate" is the only word opposite in meaning to "impede".

Hence, the answer is option D.

75) Answer: B

Explanation:

The preposition that will fit with "quick" is "at", and the one preceding "languages" will be "in".

Thus, the correct answer is B.

76) Answer: A

Explanation:

"furthermore" means "in addition", which does not fit the sentence. The sentence should have had "anymore".

Hence, the answer is option A.

77) Answer: A

Explanation:

As the sentence is grammatically correct, it would not contain any errors.

Thus, the correct option is A.

78) Answer: B

Explanation:

Since the connotation is positive and negative in the first and second parts respectively, the aptest words to fill the blanks will be "wonders" and "fact".

The correct option is B.

79) Answer: B

Explanation:

The most appropriate words to complete the sentence will be "nowhere" and "rather be than".

Thus, the correct answer is B.

80) Answer: A

Explanation:

Option B contradicts the given statement by presenting a contrary side of the expression. Then options C and D are the extension of option B. Option D describes the mental aspect of food, and option E is an extension of option D. As option A is giving a conclusion, the correct sequence of the statements will be BCDEA. Thus, the correct answer is A.

81) Answer: D

Explanation:

circumspect - aware and not willing to take risks.

Circumspect is correct word to use in the given context.

Answer is option D.

82) Answer: C

Explanation:

Although the extreme expectations of the professor are mentioned in the paragraph, the behaviour of professors can not be inferred.

Thus, C is not a valid inference from the passage.

The correct answer is C.

83) Answer: C

Explanation:

'entrepreneurship' is spelt correctly.

Answer is option C.

84) Answer: B

Explanation:

The first blank relates to the word "people", a plural entity.

Thus, the auxiliary verb used will be "are". The second blank relates to the "number of people", which is a singular entity.

Thus, the auxiliary verb used will be "is".

Hence, the answer is option B.

85) Answer: A

Explanation:

The most suitable words to fill the blanks in the given sentence will be "remorseful" and "the top of the world". Thus, the correct option is A.

86) Answer: A

Explanation:

frugal - careful in the use of one's money or resources. Thrifty also has the similar meaning.

Answer is option A.

87) Answer: C

Explanation:

mean - intend to convey or refer, signify

Answer is option C.

88) Answer: B

Explanation:

Since "communicating cultures" is indicating the purpose of films, "for" should be used instead of "of".

Hence, the answer is option B.

89) Answer: B

Explanation:

impasse - deadlock, a situation in which no progress is possible

Antonym of impasse is 'breakthrough'.

Answer is option B.

90) Answer: D

Explanation:

It is mentioned that there are two containers in a room. One is a box and one is a can.

Can is big. Box is small and green. This implies can is purple and have toys in it.

We do not know what is there in green box.

Therefore, answer is option D.

91) Answer: A

Explanation:

The primary purpose of the passage is to describe the advent of OTT platforms, their market share, and their massive potential to capture the rural Indian crowd.

Options B and D can be easily eliminated. Option C is a close option, but since the passage mainly revolved around the advent and potential of OTT platforms, option A is the correct option.

92) Answer: A

Explanation:

"However, with the entry of global players like Netflix and Amazon Prime Video, users are offered a plethora of original content. Hotstar is currently the most popular OTT platform in India according to data from a mobile advertising and Internet service provider..."

It is can be understood from the last paragraph that if original content does not attract users, OTT platforms' initiative of providing original content would be baseless. Thus, option A is a valid assumption.

So, the correct answer is option A.

93) Answer: B

Explanation:

Option A: Although rural India is a massive potential market for OTT platforms, it cannot be inferred that there is no presence of OTT there. Thus, this is not the correct option.

Option B: In paragraph 2, OTT and digital streaming are used synonymously. Thus, it can be inferred that they refer to the same type of platform. Thus, this is the correct option.

Option C: OTT platforms are expected to increase their revenue to double their current one. But it cannot be certainly said that they will do the same. Thus, this is not the correct option.

Option D: This is a very extreme statement which cannot be inferred from the passage.

Thus, the correct option is B.

94) Answer: C

Explanation:

Option A: "The target group of major OTT platforms should ideally be "millennials" or the age group of 18-35 years .

It can be inferred from the above excerpt that people born between 1985 and 2002 are easily attracted to Netflix and hence are the main target group. Thus it is not the answer.

Option B: "Digital streaming platforms overtook film entertainment to rank the third-largest Indian Media & Entertainment sector in 2019."

From the above excerpt, it can be inferred that OTT platforms surpassed movies two years ago. Thus, this is not the correct answer.

Option C: "Netflix will be the market leader in the medium term among millennials as it is a giant global player and it entered India powerful, mainly due to the youth inspired by western culture."

Although the contribution of western influence on youth is uncontested, establishing the influence as the sole reason for Netflix's popularity will be extreme. Thus, this is the correct option.

Thus, the correct option is C.

95) Answer: D

Explanation:

As the tone of the passage is informative, and the author referred to himself in some parts in the first person, this excerpt is likely taken from an editorial of a newspaper.

Since only option D comes close to the above inference, the correct option is D.

96) Answer: C

Explanation:

'...So, perhaps it was a happy confluence of increased leisure and a switch to coffee that enabled so many of those wonderful thinkers to hammer out their ideas for a new nation...'

It is clear from the underlined portion that the author considered increased leisure and a switch to coffee as the two most important reasons for enlightenment.

Option E can also be a distant reason, but since option C is more important from the author's perspective, The correct option will be C.

97) Answer: C

Explanation:

Option A: Although the author was open to the argument of coffee's role, coffee being a definite factor is far-fetched.

Option B: The author mentioned in the passage that clear mind help retain an idea for a longer time. But to say generally that coffee is a definite improvement over the pubs would be again far-fetched.

Option C: This can easily be inferred from the penultimate paragraph that there can be a possible connection between coffee and increased leisure with the age of Enlightenment. Thus, C is the correct answer.

Option D: This is again a general statement and hence can be eliminated. Thus, the correct answer is C.

98) Answer: D

Explanation:

Option A: The relation between mental acuity and coffee can be understood from the penultimate paragraph of the passage.

Option B: This can be inferred from the third paragraph of the passage.

Option C: This is also mentioned in the third paragraph of the passage.

Option D: The health part of coffee is not discussed anywhere in the passage. Thus, the correct answer is D.

99) Answer: D

Explanation:

"King Charles of England actually attempted a ban of coffee houses in 1675, fearing that they might result in his loss of power or even decapitation. However, his ministers loved their coffee so much that they overruled the ban.

" It can be inferred from the above lines that The King perceived coffee as a threat and took extreme steps to prohibit its use.

This is aptly described in option D.

Thus, the correct answer is D.

100) Answer: D

Explanation:

The whole passage revolved around the advent of coffee houses and their potential role in the Age of Enlightenment.

Only option D captured the essence of the passage.

Thus, the correct answer is D.
